

## Care Guidelines for Forbo Bulletin Board

---

### **After Installation**

Bulletin Board is ready for immediate use. Any adhesive residue should be removed as quickly as possible with a clean, damp cloth. Dried adhesive residue should be removed with a clean cloth and white mineral spirits. Always clean off mineral spirits residue with a damp clean cloth.

### **Regular Maintenance**

Regular dusting or, if necessary, wiping with a damp cloth guarantees a long useful Bulletin Board life.

Note: Bulletin Board does not normally need a special maintenance product.

### **Intensive Maintenance**

Apply Johnson Wax Professional LinoSafe Stripper diluted 1:6 to the entire surface using a Green pad or soft brush. Rinse the surface with cool clean water and allow to dry thoroughly. When dry, apply one coat of Johnson Wax Professional LinoBase sealer and allow to dry completely (approximately 30 minutes).

For further technical information about Johnson Wax Professional products and their proper use, contact your Johnson Wax Professional representative at 1-800-558-2332.
