The Ghent Experience:

We've been crafting and serving our customers' needs with innovative and customizable communication collaboration and learning solutions for over 40 years. Beginning as a premium supplier of visual communication tools, Ghent now offers display, space division, and healthcare solutions in addition to visual communication products.

Today, Ghent is your one-stop shop for blended solutions to enhance your office, conference room, workspace, classroom, or healthcare facility. All of our products are made to order, by men and women who understand the importance of quality craftsmanship. With durable materials, carefully considered construction, and hefty warranties, we can ensure that each product will outlast the competition. With a variety of sizes and designs, we are confident that you will find the perfect visual communication and space division tools that are customized for you and you only.

Glassboards

Ghent's glassboards demonstrate the path to innovation in design. Whether it be our low profile Aria Glassboard or Harmony Glassboard, we are confident that you will find the glass whiteboard that is right for you. The sleek, customizable surface provides a balance between form and function while offering additional customization options like color matching, logo application, size, and configurations. Aria and Harmony Glassboards carry a 50-year warranty and exceed BIFMA standards, guaranteeing your board will never ghost or stain.

4' x 8' Aria Glassboard shown in Marigold

Aria Glassboards

Almost nothing creates the sense of sophistication and simplicity like the look of weightless, floating glass. Ghent's Aria line, cherished for its invisible hanging hardware, highlights the beauty of frame-less glass, which complement any décor and offers an unobstructed writing surface. Use a single Aria board for personal offices and conferences rooms, or mount boards side-by-side to create a glass whiteboard wall.

Harmony Glassboards

In our experience, the magic is in the details, and we know that's where great ideas can truly shine. Harmony Glassboards are made with this in mind, featuring square and round corner options that are paired with minimally exposed hardware. Sitting 1 1/4 inches off the wall, the shadowing and space provide depth and dimension that complements the modern aesthetic found in offices and workplaces—beautifully embellishing the content being shared.

Mobile Boards

Ghent's extensive line of mobile whiteboards allow for brainstorming and collaboration when wall space is limited. Designed to be simple, clean, and functional, mobile whiteboards offer double-sided writing surfaces with integrated marker storage. They're also designed with the ability to nest multiple units to maximize space, and complement whiteboards on the wall for a complete design.

Whiteboards

There's something to be said about sharing ideas on a traditional whiteboard. At Ghent, we consider this to be important, and we've crafted our whiteboard product line to reflect these traditional nuances, while adding a modern edge to our designs. Whether its our unique surface options, or our carefully selected frame materials, we make sure our customers can enjoy the classic whiteboard look with a distinctly modern feel.

4' x 5' Impression Whiteboard shown with a Modern frame and in Espresso finish

Impression Whiteboards

When your communication needs to make a statement, Impression is the perfect choice. Impression Whiteboards and Bulletin Boards are framed with premium wood that enhances the porcelain writing surface by adding dimension and design to an otherwise traditional product. With a modern frame and an array of finishes and surfaces, the options are limitless.

Link Hex

Designed to make common areas uncommon, Hex whiteboards and bulletin boards combine an exciting shape with a variety of surfaces to leverage modern workspaces. Hex combines today's needs for beautiful and unique spaces with materiality to dampen noise, post company news, and communicate. Available in 4 different surfaces: LINK Powder-Coated Steel, Glass, Acoustic Panel, and Wrapped Fabric, giving endless possibilities to mix and match to your choosing.

Silhouette Enclosed Bulletin Boards

Highlight important announcements with our Silhouette Enclosed Bulletin Boards. This unique product line features unframed tempered glass with minimal sides, making it easier to read fliers and bulletins. Additionally, this modular, configurable design enables customers to use one or multiple units side-by-side, displaying up to nine letter size pieces of paper—making this product the perfect option for offices, lobbies and schools.

Display and Space Division Solutions

With over 130 years of experience, The Waddell Display Collection embodies quality and value when it comes to furniture and displays, ensuring our products are built to last. Reinventing the display case with Pallet Space Division Furniture, Ghent continues to evolve by producing functional displays that divide space and bring function and style to open, traditional, or modern environments.

Custom Whiteboards for Healthcare

Healthcare as an industry is filled with technological advancements. When pushing for more efficiencies, innovation, and patient engagement, sometimes simple, yet effective, solutions can be overlooked. As simple as they may be, research shows a properly designed dry erase board can help improve patient satisfaction and HCAHPS up to six points.

At Ghent, we pride ourselves on being the experts in patient room whiteboards. Ghent Healthcare dry erase boards are found in healthcare facilities across the country in patient rooms, nurses' stations, pharmacies, operating rooms and behavioral health facilities.
